Amir Rafe, Ph.D.

Postdoctoral Researcher

Education

2022–2025 **Ph.D. in Civil & Environmental Engineering**, *Utah State University*, Transportation Engineering specialization, GPA: 4.0
Dissertation: EvacuAIDi: An AI-Driven, Causal-Informed Framework for Probabilistic and Disability-Inclusive Evacuation Guidance

2010–2013 **M.S. in Civil & Environmental Engineering**, *Azad University*, Transportation Engineering specialization, GPA: 4.0
Thesis: Pedestrian Dynamics Modeling Using the Social Force Model: A Heterogeneous Approach

2005–2009 **B.S. in Civil Engineering**, *Azad University*, GPA: 4.0

Research Interests

Traffic safety and vulnerable road users; causal and trustworthy AI for transportation systems; connected and automated infrastructure; commercial motor vehicle risk; pedestrian dynamics and evacuation modeling.

Academic and Professional Appointments

2025–Present **Postdoctoral Researcher**, *AI in Transportation (AIT) Lab, Texas State University, Ingram School of Engineering*

2022–2025 **Graduate Research Assistant**, *Singleton Transportation Lab, Utah State University, Department of Civil & Environmental Engineering*

2012–2022 **Algorithm Engineer**, *Ramona T&I and IUST Research Institutes*
Transportation modeling, simulation, software development, and applied traffic-safety studies.

Manuscripts Under Review and Preprints (selected)

2026 **Rafe, A.**, & Das, S. "Benchmarking System One Decision Models Against Trained Classifiers and Language Models for Automated Decision Gates." arXiv preprint. https://doi.org/10.48550/arXiv.2610.00346.

Rafe, A., & Das, S. "Counting the Uncounted: Population-Level Surveillance of Documented Pregnancy and Fetal Harm in Police Crash Narratives with a System One Model (Jev)." Submitted to *Accident Analysis & Prevention*. https://doi.org/10.48550/arXiv.2610.00213.

Rafe, A., & Das, S. "Calibrated Decisions at Scale: Converting Police Crash Narratives into Probabilistic Crash Variables with a System One Model (Jev)." Submitted to *Accident Analysis & Prevention*. https://doi.org/10.48550/arXiv.2609.24052.

Rafe, A., & Das, S. "Narrative-Validated Roles of Unprotected Road Users in a Decade of California Automated Vehicle Collisions." Submitted to *Accident Analysis & Prevention*.

Rafe, A., & Das, S. "Differential Reporting and Recovered Behavioural Mechanisms in Electric Scooter Injury Surveillance Under a Safe Systems Lens." Submitted to *Safety Science*.

Rafe, A., Baitullah, A., & Das, S. "Latent Profiles of AI Risk Perception and Their Differential Association with Community Driving Safety Concerns: A Person-Centered Analysis." Submitted to *Transportation Research Part F: Traffic Psychology and Behaviour*. https://doi.org/10.48550/arXiv.2604.04849.

Rafe, A., & Das, S. "Heterogeneous Ordinal Structure Learning with Bayesian Nonparametric Complexity Discovery." arXiv preprint. https://doi.org/10.48550/arXiv.2605.04191.

Rafe, A., & Das, S. "Socio-Conformal Calibration in Complex Survey Data: Marginal Validity Is Not Enough for Subgroup Reliability." arXiv preprint. https://doi.org/10.48550/arXiv.2605.05562.

2025 **Rafe, A.**, & Das, S. "Causal AI and Computational Epistemology: A Survey." Submitted to *ACM Computing Surveys*. https://dx.doi.org/10.2139/ssrn.6045495.

Rafe, A., & Singleton, P. A. "Who Leads, Who Follows? A Review of Leadership and Guidance Dynamics in Evacuation." Submitted to *Safety Science*. Included in doctoral thesis.

Rafe, A., & Singleton, P. A. "Causal AI for Evacuation Modeling: A Modular Framework for Standards-Compliant Simulation Input Generation." Submitted to *Transportation Research Part D: Transport and Environment*. Included in doctoral thesis.

Rafe, A., & Singleton, P. A. "Evaluating AI-Driven Evacuation Guidance: A Causal-Intervention and Counterfactual Simulation Framework." Submitted to *Transportation Research Part C: Emerging Technologies*. Included in doctoral thesis.

Rafe, A., & Singleton, P. A. "A Hierarchical Bayesian Framework for AI-Guided Evacuations under Human Compliance Uncertainty." Submitted to *Transportation Research Part C: Emerging Technologies*. Included in doctoral thesis.

Research Projects and Funding Experience (selected)

2026–Present FMCSA: *Telematics-Informed Crash Risk Modeling to Support Targeted Traffic Enforcement for CMV Safety*. Sponsor: Federal Motor Carrier Safety Administration. Role: Key Researcher.

2025–Present NCHRP 17-113: *Incorporating Safe System Approach into the NCHRP Report 500 Series*. Sponsor: National Cooperative Highway Research Program. Role: Key Researcher.

NCHRP Synthesis 20-05 / Topic 56-05: *Traffic Analysis Practices for Non-Motorists*. Sponsor: National Cooperative Highway Research Program. Role: Key Researcher.

NCHRP 17-134: *Center Line Buffer Areas for Safety: Implementation Guidelines and Tool*. Sponsor: National Cooperative Highway Research Program. Role: Key Researcher.

BTSCRP BTS-39: *Toolkit for Reducing Substance-Impaired Driving for the Last Leg of the Journey*. Sponsor: Behavioral Traffic Safety Cooperative Research Program. Role: Key Researcher.

BTSCRP BTS-42: *Guidelines for Authorizing, Implementing, and Operating Automated Traffic Enforcement Programs*. Sponsor: Behavioral Traffic Safety Cooperative Research Program. Role: Key Researcher.

Examining the Pre-Crash Circumstances Leading to Pedestrian Fatalities. Sponsor: AAA Foundation for Traffic Safety. Role: Key Researcher.

2024 *AI-Powered Tools for Safe Evacuation of Individuals During Emergencies*. Sponsor: Center for Transformative Infrastructure Preservation and Sustainability (CTIPS). Role: Key Researcher.

2022–2024 *The UDOT Pedestrian Data Platform*. Sponsor: Utah Department of Transportation. Role: Key Researcher.

2022 *Prediction of Traffic Congestion Patterns Using Deep Learning*, in cooperation with KU Leuven. Role: Project Manager.

2021 *Fire Simulation and Crowd Emergency Evacuation Studies of Parsabad and Khoy Airports*, Iriana Consulting Engineers Co. Role: Project Manager.

2017–2020 *Traffic Safety and Impact Studies*, Tehran, Rasht, Qom, and Isfahan, Iriana Consulting Engineers Co. Role: Project Manager.

2013–2016 Transportation resilience, traffic guide-sign software, tunnel evacuation, and pedestrian simulation studies with IUST and industry partners. Role: Project Manager.

Proposals Written and Submitted (selected)

2026 NSF: *AIMing: Neuro-Symbolic Verification for the Autonomous Energy-Mobility Nexus*, Artificial Intelligence, Formal Methods, and Mathematical Reasoning (AIMing).

Amazon Research Awards: *RoadSafe Agents: Governed Multi-Agent AI for Proactive Road Safety Scoring.*

Amazon Research Awards: *SafetyLens and SafeLM: Risk-Calibrated Multimodal Foundation Models for Auditable Traffic Crash Understanding.*

2025 NSF: *Sheaf-Theoretic Identifiability for Multi-Sensor Safety Systems*, Mathematical Foundations of Artificial Intelligence (MFAI).

NSF: *PIVOT: Privacy-Preserving Infrastructure for Video Synthesis and Analysis in Open Transportation Safety*, Cyberinfrastructure for Sustained Scientific Innovation (CSSI).

ARPA-I: *EvacuVerse: A National Causal Digital Twin for Disability-Inclusive Evacuation and Multi-Modal Re-Routing.*

CREATE University Transportation Center: *Role of Emerging Transportation Technologies and Safety Initiatives in Mitigating Crashes in Coastal Communities.*

Patent Applications and Invention Disclosures

2026 **Rafe, A.**, & Das, S. "CausalSafe: System and Method for Multimodal Neuro-Symbolic Causal Inference, Counterfactual Traffic Risk Assessment, and Proactive Safety Intervention Using Structural Causal Models and Grounded Large Language Models." U.S. Provisional Patent Application No. 64/072,601, filed July 10, 2026. Filed through Texas State University.

Rafe, A., & Das, S. "PIVOT: System and Method for Privacy-Preserving Synthesis, Co-Reported Privacy-Utility Certification, and Federated Sharing of Transportation Video, Trajectories, and Safety Analytics." U.S. Provisional Patent Application No. 64/072,290, filed May 22, 2026. Filed through Texas State University.

Rafe, A., & Das, S. "Sheaf-Theoretic System and Method for Trustworthy Multi-Sensor Fusion in Roadway Safety Applications." U.S. Provisional Patent Application No. 64/072,334, filed May 22, 2026. Filed through Texas State University.

EvacuAIDi: Accessibility-aware AI framework for probabilistic emergency evacuation guidance. *Innovation disclosure submitted*, Utah State University.

Teaching Experience

2026 Guest Lecture: "System 1 Models in Safety Research: What Jev and Laya Can and Cannot Do," *AI in Civil Engineering* (CE 7393), Guest Speaker Series, Texas State University.

2025–2026 Guest Lecturer: *Traffic Engineering*; *AI in Civil Engineering* ("Agentic AI in Civil Engineering"); *Roadway Infrastructure Safety*, Texas State University.

2022–2024 Guest Lecturer: *Transportation Planning*; *Transportation Data and Safety Analysis*, Utah State University.

2023 Curriculum Developer, *Empowering Teaching Excellence (ETE-10)*: Prepared asynchronous modules for undergraduate and graduate students in statistics, data science, and applied AI.

Mentoring

Texas State University — ***Ph.D.***: Sawgat Ahmed Shuvo. ***M.S.***: Arka Chakraborty; Anika Baitullah; Sazzad Bin Bashar Polock; Tausif Islam Chowdhury. ***B.S.***: Biplov Pandey; Irfan Sarwar Pranjol; Bidisha Shrestha. ***B.S. Computer Science***: Gaurab Chhetri; Radha Yadav.

Lund University — ***M.S. co-supervisor***: Yousef Zoghi.

Academic and Professional Service

Conference Review — Transportation Research Board (TRB) Annual Meeting Reviewer, 2022–Present; Annual Conference on Neural Information Processing Systems (NeurIPS), 2026; IEEE International Conference on Intelligent Transportation Systems (ITSC), 2024.

Journal Review — Safety Science; Transportation Research Part A; Transportation Research Part D; Transportation Research Part F; Accident Analysis & Prevention; European Transport Research Review; International Journal of Transportation Science and Technology; Journal of Transport & Health; Journal of Transport Geography; Transportation Research Record; Transportation Research Interdisciplinary Perspectives.

Awards and Certifications

Award — The BobCatalyst Innovation Accelerator Program (BIAP) Award (Texas State University); Graduate Enhancement Scholarship (Utah State University).

Teaching — Empowering Teaching Excellence (ETE-10), Utah State University.

Software and Computing

Python; R; SQL (PostgreSQL, BigQuery); Apache Spark; Docker; C++; Google Cloud Platform; AWS; QGIS; ArcGIS; MATSim; SUMO; PTV Vissim/Viswalk; Pathfinder; MassMotion; Fire Dynamics Simulator (FDS); AutoCAD Civil 3D.

Professional Memberships

American Society of Civil Engineers (ASCE); Institute of Transportation Engineers (ITE); Global Burden of Disease (GBD) Collaborator Network, Institute for Health Metrics and Evaluation (IHME), University of Washington.

Languages

English, fluent; Persian, fluent; Spanish, moderate.
